

LETTING THOSE IN WHO BELONG. KEEPING ALL OTHERS OUT.

## The Simeio Difference

Simeio Identity & Access Governance Service (IGA) is a proven way to reduce exposure of unauthorized or inappropriate access at a much lower cost (and with greater reliability) than manual or semi-automated processes. We help with compliance and reduce cost of audit.

You get the latest, best-in-class IGA technologies and reliable 24/7 monitoring and support – with no hardware or capital investments, lengthy integrations, migrations or upgrades required. We'll address serious and rapidly changing security threats while minimizing the impact on your organization and your employees.

## Simeio Professional Services

Our Advisory Services team enables our customers to quickly launch or expand their IAM Programs, achieving on average a 60% faster time-to-market than traditional IAM implementations.

## Free Risk Assessment

Assess your access governance risk with a complimentary quick-start risk assessment workshop delivered by our subject matter experts.

We use industry-forged consultative processes and automated scripts to assess the scope of your security risk. This can help you to prioritize initiatives and educate your business on the risks, while building a business case.

### SIMEIO FAST FACTS

- 150,000,000+ global identities managed
- We focus solely on Identity & Access Management
- Established 2008

## Why You Need It

**Access Governance** reduces the risks associated with end users who have un-necessary or inappropriate entitlements. Excessive or inappropriate access entitlements violate the Principle of Least Privilege and can create risk for corporate information assets.

- Risk of Excessive Privileges
- Need for Cloud and On-Premise Environmental Support
- Compliance Efforts Not Efficient Enough

## How You'll Benefit

- Simeio's IGA as a Service provides a comprehensive way to monitor entitlements and access granted, thus giving you greater visibility into who has access to what within your organization.
- Simeio's IGA as a Service offers easy-to-understand dashboards that allow business managers a high-level overview, facilitating quick response. (Details are always available as well.)
- Simeio's IGA as a Service also positively impacts the certification process, by reducing certification and recertification requirements. Users can even be certified on an ad-hoc basis, as required, at any point in time.

### An Identity & Access Governance Client Success

“Simeio stands out as one of the finest service providers I have had the pleasure of working with.”

– VP, GROUP MANAGER, VANTIV

## OUR CONNECT AND PROTECT FOCUS GIVES YOU A COMPLETE RANGE OF CUSTOMIZED SOLUTIONS, PROVEN EFFECTIVE FOR OVER 150 MILLION IDENTITIES. GET #SIMEIOSAFE

---

### IDENTITY ADMINISTRATION

Simeio can manage your end-to-end identity lifecycle for employees, partners, customers and devices. We'll handle all account requests, approval workflows, automated provisioning, self-service password resets and access termination.

**Business Problems Solved:** Faster onboarding and offboarding, better controls, compliance and cost improvements through automating manual processes and automated access termination.

### ACCESS MANAGEMENT & FEDERATION

Get peace of mind and much more secure authentication. Simeio can implement a seamless single sign-on (SSO) to any on-premise application or network resource. Enjoy secure access from any device, supporting all federation standards. Educate your business on the risks, all while building your business.

**Business Problems Solved:** Too many sign-ons, frustrating user experience.

### DATA SECURITY & LOSS PREVENTION

Security solutions for all types of databases as a hosted managed service. Set up policies to discover and prevent unwarranted actions on your sensitive content and data in the cloud. Centrally manage and enforce data management policies, alerts, logs and data egress blocking.

**Business problems solved:** Ensuring that private data remains private.

### SECURITY & RISK INTELLIGENCE

Deploy and maintain security and behavioral analytics with Simeio. User and entity behavioral analytics can deliver continuous risk monitoring. Sophisticated machine learning algorithms enable real-time detection of breaches and threats.

**Business problems solved:** Ensuring that people are using their access appropriately.

### ACCESS GOVERNANCE

Let Simeio automate compliance and protect your enterprise against threats with solutions for access certifications, segregation of duties enforcement, role management, and identity proofing.

**Business Problems Solved:** SOX compliance, time-consuming manual access review, reduce audit findings or compliance violations.

### PRIVILEGED IDENTITY MANAGEMENT

Now you can securely manage passwords & SSH keys for SaaS and on-premise applications through auto-discovery, privileged checkout, session recording & threat analytics. Simeio will automate compliance reporting with integration to existing access governance & MFA.

**Business Problems Solved:** Identifying privileged access, reduced risk by improved controls, integration of privileged accounts into governance platform.

### CORE DIRECTORY SERVICES

Simeio can help you manage your identities on a global scale, with high performing and flexible virtual directory solutions. Enable secure and seamless access to web and cloud solutions. Full service includes platform integrations, workflow configurations and directory management.

**Business Problems Solved:** Single view of identity in highly complex environment to enable secure and seamless access to web and cloud solutions, giving right access at any time with any device.

### CLOUD SECURITY

Protect critical cloud infrastructure with Simeio Solutions that can detect shadow IT. Automate cloud security admin, including SaaS identity administration and SaaS configuration monitoring. Implement end-to-end control through real-time cloud threat intelligence.

**Business problems solved:** Reduction in Shadow IT and improved security around employees use of the internet.
